IIE Bachelor of Arts in Interior Design

Degree

Full-Time

The IIE BA Degree in Interior Design has specifically been designed to meet the requirements of the challenging and expanding fields of Interior Design such as corporate, retail, hospitality, exhibition and residential design. This qualification provides students with a clear understanding of three-dimensional design analysis, scale/proportion, spatial sequence and other architectural components. Students are encouraged to develop a thorough and imaginative approach to creative problem solving in the context of any human environment. Lateral design approaches are developed in which briefs are solved at a variety of levels and with an integrated experimental approach to problem solving. Design briefs encourage students to engage with design influences such as: economics, ergonomics, anthropometrics, sustainability, inclusivity, cultural influences, social context and location. Students will also be introduced to ideation and visualisation techniques, the interior design process, research, theories, perspectives and history of interior design, interior design construction and detailing, material studies, professional practice and computer-aided design (CAD) and building information management (BIM) tools presently used in design practice.

Please note

IIE-Vega does not require a portfolio as part of the application process to study design. That's because our primary focus is on how our students think and how collaborative they are as creative solution seekers. The development of an industry-ready portfolio becomes a core focus once you enrol and engage hands-on with any one of our design programmes. You are welcome to make an appointment with your campus Contact Navigator if you are not sure which design course would suit you best.

Timetables

This qualification is aimed at students who wish to complete full-time face-to-face studies for the duration of their qualification. This means that students are expected to be available throughout the day for class in the academic year depending on how the timetable is structured. Students may also be required to write assessments or submit coursework or assignments outside of normal class time. Students who would like to pursue part time employment opportunities outside of the academic programme must prioritise their studies and avoid committing to work schedules until after they have received their timetables and academic calendar from the institution. Students must also note that timetables remain subject to change throughout the academic year.
